Customer Smart Account Request Quick Reference Guide for Partners, Distributors, and End Customers

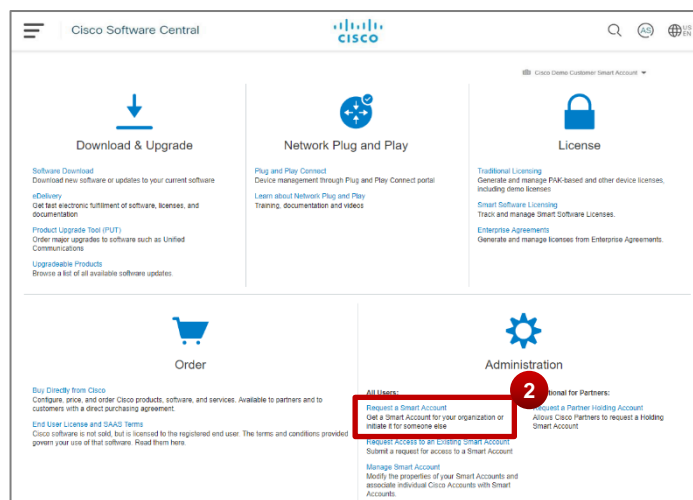

Overview

A Customer Smart Account provides the repository for Smart enabled products and enables Users to manage Cisco Licenses. Once they are deposited, Users can activate licenses, monitor license usage and track Cisco purchases. Your Smart Account can be managed by the Customer directly or a Channel Partner or authorized party. All Customers will need to create a Customer Smart Account to fully utilize the license management features of their smart enabled products. The creation of your Customer Smart Account is a one-time setup activity.

To initiate a request for a Customer Smart Account, log into [Cisco Software Central](https://software.cisco.com) (CSC) with your CCO ID. If you do not have a CCO ID, go to www.cisco.com and click Register Now.

Customer Smart Account Request

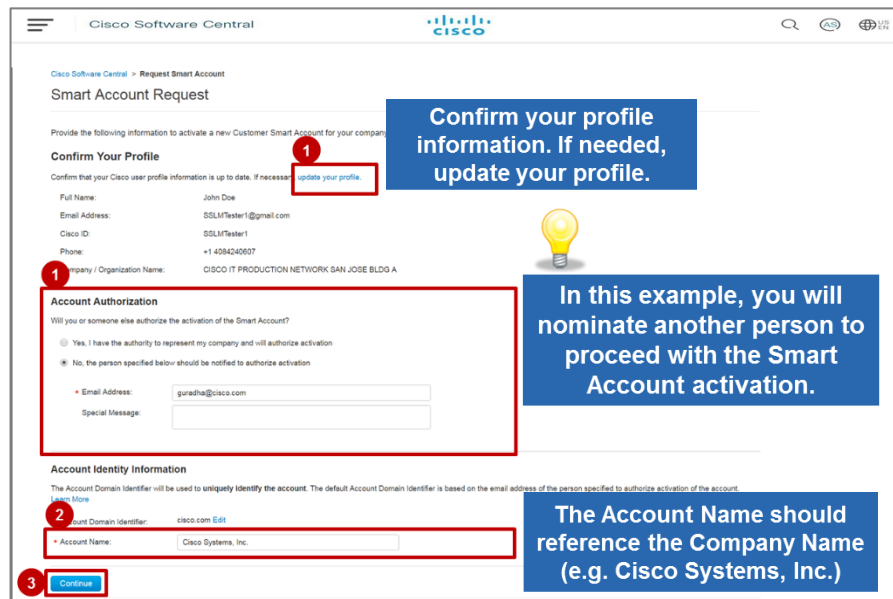

- 1 Access Cisco Software Central:
<https://software.cisco.com/>
- 2 Go to **Administration** and then click on **Request Smart Account**.

Select an Account Creator

- 1 Select the option **“Yes, I have the authority to represent my company...”** if you have the authority to represent your company and you will authorize Smart Account activation.

Select the option **“No, the person specified below should be notified to authorize activation”** if you do not have the authority or prefer not to authorize the Smart Account. Select this option

also to start a Smart Account request on behalf of your Customer.

- 2 Enter the **Account Name**.
- 3 Click **Continue** to proceed.

Edit the Account Domain Identifier (Optional)

- 1 If needed you can **Edit the Account Domain Identifier** (optional - requires additional approval time).
- 2 In the **Edit Account Identifier** dialog box, change Domain Identifier (edit top-level domain or add a prefix).
- 3 Click **OK** to confirm the new Domain ID.
- 4 Verify the **Account Name** and edit if required.
- 5 At this point you can click **Continue** to proceed with the Smart Account request (see previous box).

***Note:** If you choose to edit the Account Domain Identifier at the time of Smart Account request, Cisco will contact you to complete the approval process.

The screenshot shows two overlapping dialog boxes. The top box is titled "Account Authorization" and contains two radio buttons for authorization, an "Email Address" field with "guradha@cisco.com", and a "Special Message" field. Below this is the "Account Identity Information" section, which includes an "Account Domain Identifier" field with "east" and an "Account Name" field with "Cisco Systems, Inc.". A red box highlights the "Account Domain Identifier" field with a callout '4'. A red arrow points from this field down to the "Edit the default Account Domain Identifier" dialog box. This second dialog box contains explanatory text and a text input field with "east" and "cisco.com". A red box highlights the input field with a callout '2'. At the bottom right of this dialog box, there are "OK" and "Cancel" buttons, with a callout '3' pointing to the "OK" button. A callout '1' points to the "Account Domain Identifier" field in the top dialog box, and a callout '5' points to the "Continue" button in the same dialog box.

Customer Smart Account Request Quick Reference Guide for Partners, Distributors, and End Customers

Enter Company Information

You will be brought to the Company Information page. **If you selected the option No under account authorization, you will have the option to provide Customer Company Name and Address (it is optional). If you selected the option Yes under account authorization, you will need to provide your Company Name and Address (it is mandatory)**

- 1a** Tick the checkbox to **select to provide this information now.**
- 2a** You will **view the address for the GU (Headquarters) of the Customer's Company.** We encourage you to select the Headquarters address.
- 3a** Click **Continue**

If you do not wish to select the displayed address, you can select "Manual Entry" to enter a different address.

Cisco Software Central > Create Smart Accounts

Create Smart Accounts

Company Information(Optional)

This information is optional at this time but is required to complete activation of the Smart Account. If you choose to provide it now, the person authorizing activation of the Smart Account will be able to review and change the information if needed.

Identify the legal name and headquarters address of the company/organization that is the owner of this Customer Smart Account. The company / organization provided must have the right to use the top-level domain name used in the Smart Account Domain Identifier.

Top-level Domain Name: global.com

Select to provide this information now

From the below list, select the legal company headquarters. If you see multiples, if the name doesn't meet expectations, click the arrow to display subsidiaries.

Manual Entry

Party Name	Address	Type	Parent (Level)	Children
GLOBAL SERVICES INC	116	GU	-	-

Showing 1 Record

If you do not wish to select the displayed address, you can select "Manual Entry" to enter a different address.

Cisco Software Central > Create Smart Accounts

Create Smart Accounts

Company Information

This information is required to complete activation of the Smart Account.

Please provide the legal name and headquarter address of the company / organization that is the administrator of the Customer Smart Account. The company / organization provided must have the right to use the top-level domain name used in the Smart Account Domain Identifier.

Top-level Domain Name: .com

From the below list, select the legal company headquarters. If you see multiples, if the name doesn't meet expectations, click the arrow to display subsidiaries.

Manual Entry

Party Name	Address	Type	Parent (Level)	Children
LTD	SOUTH AFRICA	GU	-	-
ACCOUNTING	HONG KONG, HK, 34394	HQ	-	0
FRANCE	HAUTS-DE-SEINE, 92	HQ	-	0
PERU SAC	LIMA, PE	HQ	-	27
SISTEMAS INFORMATICOS L	SANTIAGO, CHILE	HQ	-	13

Request Smart Account – Existing Smart Account for the Top-Level Domain

At the time of Smart Account Request, whether you select the option „Yes, I have the authority to represent my company...” or the option „No, the person specified below should be notified to authorize activation”, you might come across a scenario where a **Smart Account is already set up for the Top-Level Domain ID** you are requesting.

1 In this case, after clicking **Continue**, you will have different options to move forward.

Cisco Software Central > Create Smart Accounts

Create Smart Accounts

Provide the following information to activate a new Customer Smart Account for your company or to request an account on behalf of another user or company.

Confirm Your Profile

Confirm that your Cisco user profile information is up to date. If necessary, [update your profile](#).

Full Name: Anna Skocka
Email Address: askocka@cisco.com
Cisco ID: askocka
Phone: +48 22 572 2775
Company / Organization Name: Cisco Systems, Inc.

Account Authorization

Will you or someone else authorize the activation of the Smart Account?

Yes, I have the authority to represent my company and will authorize activation

No, the person specified below should be notified to authorize activation

* Email Address:

Special Message:

Account Identity Information

The Account Domain Identifier will be used to uniquely identify the account. The default Account Domain Identifier is based on the email address of the person specified to authorize activation of the account. [Learn More](#)

* Account Domain Identifier:

* Account Name:

1

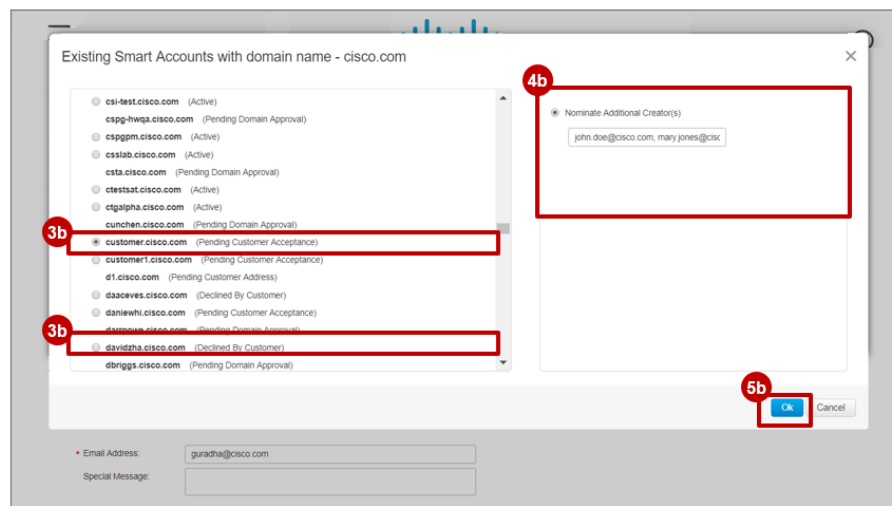

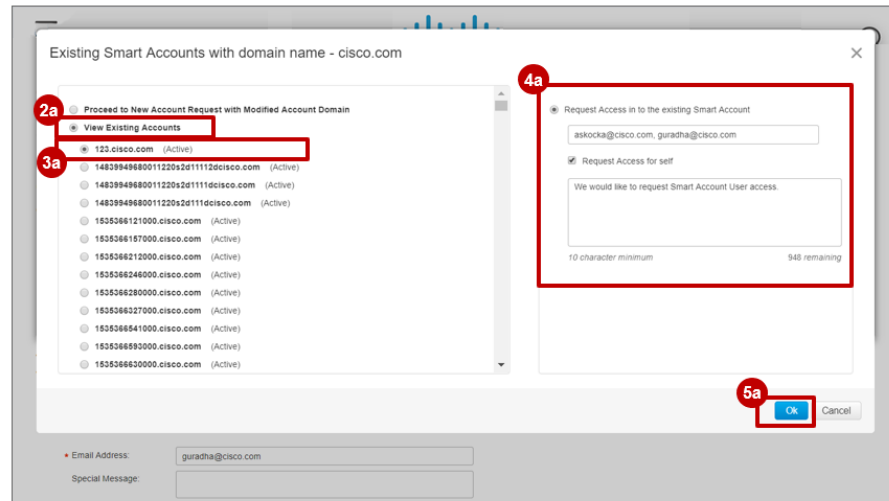

Request Smart Account – Existing Smart Account for the Top-Level Domain

If there are **Smart Accounts** already set up with the same **Top-Level Domain**, then you will be able to:

- 2a** View Existing Smart Accounts.
- 3a** Select one of the **Active** Smart Accounts from the list.
- 4a** Request Access to that Existing Smart Account. You can add one or multiple email addresses separated by commas. You can also request access for yourself. In addition, please provide a reason for the request.
- 5a** Click **Ok**
- 6a** You will receive a confirmation message (User Access Request Created).

Request Smart Account – Existing Smart Account for the Top-Level Domain

- 3b** When **viewing Existing Smart Accounts**, you can also select a **Smart Account** that is not active yet but is currently **Pending Customer Acceptance** or has been **Declined by Customer**.
- 4b** You can **Nominate Additional Creators**: add one or multiple email addresses separated by commas.
- 5b** Click **Ok**

6b You will receive a confirmation message and the nominated Creators will receive an email notification to complete Smart Account setup.

Note: you will not be able to select Smart Accounts in „Pending Domain Approval” status or „Pending Customer Address” status, because the activation of the Smart Account is in progress.

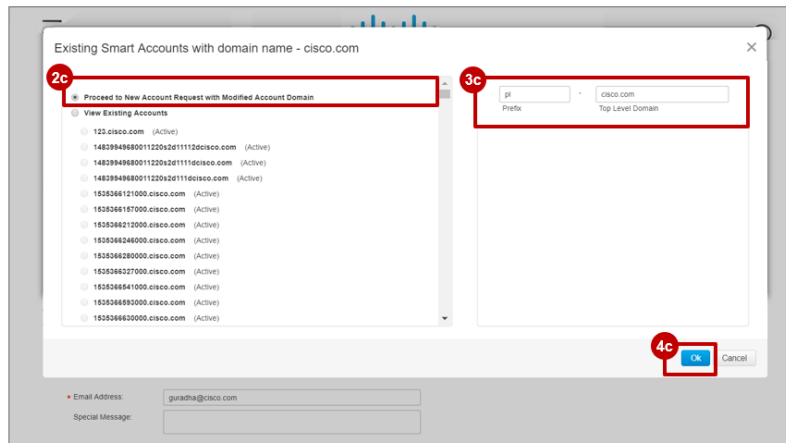

Request Smart Account – Existing Smart Account for the Top-Level Domain

2c Instead of viewing the Existing Smart Accounts, you can **Proceed to New Account Request with Modified Account Domain**.

3c You can add a **Prefix** to the existing Top-Level Domain (e.g. pl.cisco.com), or you can enter a different **Top-Level Domain** (e.g. newcustomer.com).

4c Click **Ok**

5c You will be redirected back to the Create Smart Account page, and you will be able to continue the Smart Account Request with the Modified Account Domain ID.

Once the Domain is approved, the Creator can complete the Smart Account Setup. See the [Customer Smart Account Setup Quick Reference Guide](#) for more information.
